One feature, one turn

What you type or decide. The agents do the rest.

1 IDEA

- Dictate the idea, long and in order
- Still fuzzy? `/cflow grill me first <idea>`

2 PLAN

- Answer the product questions
- Say **GO** + **autopilot-full** or **autopilot-stack**

3 BUILD

- Approve screenshots of what users will see
- `/cflow check on pr 123`

4 SHIP

- Yes or no to each deploy
- Yes or no to anything that can't be undone

5 UNDERSTAND

- Read the explainer, take the quiz
- `/explain-diff` for any PR

`/cflow-help` which skill fits?

`/why <question>` why was X built this way

`/bro` last message in plain words

`/cflow i'm going to bed. land the stack.` overnight run

`/reflect` · `/correct` turn lessons into rules

`/how <question>` how does X work

`/interrogate` other models try to break a change

`/recall <topic>` catch up on a topic

`/cflow pick up the last agent's work` resume a session

`/setup-cflow` change models or budget

You decide: idea · product questions · GO · screenshots · deploys · quiz
